Mayor Scott motioned to approve the SFYs 2024-2025 UPWP Report, Councilmember Munns seconded, the motion passed unanimously.

4. RTP Draft Review/Consultants

Susan Driver from David Evans and Associates gave an update about the following:

- Verification of the vision statement. (Is it still the Board’s current vision)?
 - Re-organization of the policy section. (Same policies, different format, less extraneous detail. We can include a discussion of how these policies correspond to the six State policies)
 - Organization and layout of the Action Item section. All administrative responsibilities identified in the RCW, and subsequently in the UPWP, have been removed as Action Items. Action Items need to directly reflect the policies of the IRTPO. The IRTPO is not responsible to lead all of the Action Items. A lead agency is responsible for each Action Item must be identified. TAC members have been asked to provide additional Action Items for this section. Some have been received, but not yet added to the document.
- Executive Board action will only be needed today if there are significant changes requested to the vision or policies.
 - We have acquired WSF data for the Clinton and Coupeville Gateways.
 - WSDOT and Fehr & Peers acquired data for the SR 532 Camano Gateway as part of the Stanwood study. WSDOT has provided this data in draft form. We are waiting for approval to include in the RTP document.
 - We are still working on locating comparable data for the Deception Pass gateway.
 - Demographic data provided comes from the US Census - American Community Survey 2021, from the Office of Financial Management, and from the Department of Labor & Industries.
