Record Part 2 @ 49:33

17.02B.410A. Evaluation Requirements – Fish and Wildlife Habitat Conservation Areas

2. For activities authorized pursuant to ICC 17.02B.310.C.7 no BSA shall be required provided that:
   a) The activity does not involve a type “F” or type “S” stream; and
   b) The activity is associated with an Existing and On-Going Agricultural Activity; and
   c) The Director verifies, prior to permit approval, that the area where the proposed activity will take place has been actively used for, and continuously maintained as, an agricultural drainage facility; and
   d) The proposed activity is limited to Maintenance or Repair; and
   e) Critical Area functions and values can be protected through the application of clear, and easily understood Mitigation measures and BMPs; and
   f) Upon completion of the proposed work the Director verifies that required BMPs have been properly implemented and that all conditions of permit approval have been adhered to.

17.02B.410B. Evaluation Requirements – Fish and Wildlife Habitat Conservation Areas

7. Best Management Practices, including a discussion of on-going maintenance practices that will assure protection of all Critical Areas on-site after the project has been completed. If Monitoring is required, this section shall include a description of proposed monitoring criteria, methods, and schedule. For Repair or Maintenance of legally established drainage facilities that are associated with Existing and On-Going Agricultural Activities and that are also Regulated Streams, NRCS guidelines shall be accepted as BMPs when it can be shown that such guidelines will protect the functions and values of the Critical Area.

17.02B.310A. Permitted Alterations

2. A Mitigation plan shall also be required by the Director consistent with Section 17.02B.080 unless the Director determines that the project is exempt from Mitigation Plan requirements pursuant to ICC 17.02B.080.H.

17.02B.080 General Mitigation Requirements

H. For projects exempt from Biological Site Assessment requirements under ICC 17.02B.410A.2, no Mitigation plan shall be required.
Follow up: Deliberation will continue to September 8, 2014 at which time the public hearing will be re-opened to provide an opportunity for public testimony on the proposed clarifying language.

SEPTEMBER 4, 2014 AT 2:00 P.M. – WORK SESSION RECONVENED
BUDGET WORKSHOPS WITH DEPARTMENTS
(Access recording here: Budget Workshops with Departments)

The Board reconvened for Budget Workshops with Departments at 2:00 p.m. Commissioners Johnson and Price Johnson were in attendance. Commissioner Vaughan attended via Polycom from his office on Camano Island. Following are the Departments’ supplemental requests.

Public Works
Presentation by Bill Oakes
(Handout provided - 2014 ERR Month Rental Rates)

GIS Implementation
- Funded 50% from Current Expense and 50% County Road Fund. In 2012-2013 the County contracted with a consultant to develop an implementation plan for an enterprise GIS system. This funding is needed to move GIS forward within the County. GIS will better manage, utilize and analyze the County’s geospatial data. This will improve communication with both internal and external customers.
- Coordinator, start-up and annual licensing

County Roads
- Correct salary disparity between non-represented supervisors and highest paid 1845-I union positions. Two non-represented supervisors make the same as highest paid 1845-I because only 1845-I members received COLA 2.6% in 2009.
- Survey Technician (Engineer Tech). Succession planning and increase level of service.
- Sign Shop Tech extended nine months – seasonal to twelve months. Additional staff time to address workload increases as well as implement regular sign inspection program.
• UHF Simulcast

Emergency Management
• Administrative Assistant .5 FTE. Relieve Deputy Director from answering phones and general office, which will provide increased functions of education, training, exercises, planning and response.

Parks
• Seasonal Parks Tech, increase from nine months to 12 months. This increase will alleviate strain on employees, enhance safety and increase level of service to citizens. In-house winter maintenance will reduce costs and allow catch-up on deferred maintenance.
• Four Springs additional funding for M&O. Due to a successful marketing campaign, rentals have increased by 40% in 2014, but additional funding is needed to meet increasing maintenance and utilities and to correct negative fund balance.

Surface Water
• Surface Water Engineer

Solid Waste
• Solid Waste Tech

Public Health
Presentation by Keith Higman
• Environmental Health Technician
• Public Health Nurse
• Environmental Health Specialist II
