

Thunder Run 2025 Donation

HELP SAVE LIVES, June 7, 2025

This is a significant, multi-location, and historically multi-state exercise.

Food purchased through this donation drive is flown from the Walla Walla and Bellingham International hubs across Washington State, with past support from Oregon and British Columbia.

Every dollar donated goes directly toward buying food for local food banks.

By transporting live products, we provide immediate assistance and refine our skills in using General Aviation effectively—when it truly matters, and lives are on the line.
