Island County Parent to Parent

*Disability Resources, Support,
Information, Trainings &
Family Connections*

Mission

We walk alongside those parenting children with developmental disabilities and/or special health care needs, connecting them with peer support and information so they can take the next step.

"A Hero is an ordinary individual who finds the strength to persevere and endure in spite of overwhelming obstacles"

Vision

All families of children with developmental disabilities and/or special health care needs deserve encouragement, inclusion and meaningful connections that support family well-being.

Parents may have questions and concerns as they learn about new information and services that can help their child and family. Parents also need time and support to navigate their own emotions and adjust to raising a child with special needs. Personal support from another parent, who has a child with similar needs, can help. You are not alone. We have been there.

Parent to Parent Services

No Cost Services:

- Support
- Resources

How Can Parent to Parent Help You?

Parent to Parent offers community resources, support in a variety of different ways, help navigating systems and connections with other families with special needs. All ages, and stages. From learning your child has a disability through the adult years, the journey takes many different turns and twists.

Parent to Parent is a nationwide organization that began here in Washington State. Parents have many questions and concerns in coping with their child's needs and their own feelings. Personal support from another parent, who has a child with

similar needs, can be helpful in coping with these challenging experiences and feelings. Helping Parents (volunteer peer mentors) are available to provide support and information.

I am a stranger to you now, let me walk with you for awhile. Because I have been where you are, and where you are about to go. I have no answers. I offer instead my hand, my heart, my listening ear, my time, and my experience.... So that one day, you can turn to another and say:

I am a stranger to you now...."
