Household Hazardous Waste & Business Chemical Disposal

TIPS FOR TRANSPORT - Improperly packaged and transported Household Hazardous Waste is dangerous to people, pets, and the environment. Please:

- Keep products away from children, pets, and out of the vehicle passenger cabin.
- Place items in leak-proof tubs. Placing leaking containers in a separate tub or bucket.
- Secure lids and the load to prevent shifting and spills.
- Keep products in labeled containers.
- NEVER MIX different products together.

Secure fluorescent lamps to prevent breakage and mercury release.

OTHER MATERIALS

APPLIANCES: Washers, dryers, hot water heaters, stoves, ovens and other non-refrigerating household appliances can be recycled at the Coupeville Solid Waste Complex and the Camano Solid Waste Dropbox & Recycle Park for a fee. Non-refrigerating appliances may also be recycled through private sector scrap metal recyclers. Refrigerators, freezers, ice makers, water coolers, wine coolers, chillers, air conditioners, and other charged refrigeration units contain powerful greenhouse gasses and must be recycled at the Coupeville Solid Waste Complex or the Camano Solid Waste Dropbox & Recycle Park for certified refrigerant recovery. Food must be removed from refrigerators and freezers.

BATTERIES: Rechargeable, lithium, and button cell batteries are accepted at all Island County Solid Waste facility, see attendant. Alkaline batteries are made of non-hazardous materials and can be tossed directly into the trash.

CELL PHONES: Cell phones are accepted at all Island County Solid Waste facility, see attendant.

HYPODERMIC NEEDLES (SHARPS) DISPOSAL: Place hypodermic needles and/or syringes into a manufactured "sharps" container available at pharmacies or a two-liter plastic soda bottle, label bottle as "SHARPS" using 2" wide tape and a large felt-tip pen, and securely tape the lid closed when filled.

Dispose of sharps container at any Island County Solid Waste facility, disposal fees apply. Please let the site attendant know you are disposing of sharps, they will direct you on where to safely dispose of them.

ASBESTOS: For removal and disposal information contact Northwest Clean Air Agency, 800-622-4627

MED-Project®
Medication Education & Disposal

MED-Project is a free statewide medicine disposal program available for all Washington state residents. They offer two ways to return expired or unwanted medication, by mail or drop off sites. See their website for more information, www.med-project.org

The Coupeville Solid Waste Complex accepts paint (including latex) for recycling through a partnership with the paint stewardship program Washington Paint-Care. For additional locations to recycle paint, see www.paintcare.org

LightRecycle WASHINGTON

Island County participants in the LightRecycle Washington program. Through this program we accept mercury-containing lights such as Compact Fluorescent Lights (CFL's), Fluorescent Tubes and High Intensity Discharge (HID) Lamps at all of our Solid Waste facilities. www.lightrecycle.org

E-CYCLE Washington

TV's, Monitors, Computer CPU's, Laptops, Tablets, E-Readers & Portable DVD players, are accepted for recycling through a partnership with E-Cycle Washington at the Coupeville Complex, North Whidbey Dropbox & Recycle Park, Camano Dropbox & Recycle Park, & DTG Recycle in Freeland. www.ecyclewashington.org
