### Supplemental Attachment to Comprehensive Plan Amendment Application

#### PLEASE NOTE:

- An application, and this supplemental attachment, must be completed for all proposed nominations, whether requested by an individual, a city or town, or the County.
- A separate application will be required for each nomination.
- A designation of a species or habitat of local importance will require both a plan amendment and an amendment to development regulations.
- Nominations may be made at any time, but due to the extensive research and updates that would be required, designations will typically only be updated as a part of a periodic update cycle.
