Septic Maintenance Service Providers (MSPs)

Are licensed to perform required routine septic system inspections. They can help you troubleshoot septic issues and tell you when your tank needs to be pumped.

Septic Tank Pumpers

Are licensed to remove tank contents. Call a septic pumper when your septic system is due for pumping.

Septic Designers

Evaluate site locations and design new systems, alterations, and repairs. Call a designer **first** when your septic system needs alterations or repairs.

Island County Sanitarian

Reviews and approves permits to make sure they are up to code. They also ensure systems are installed properly.

Septic Installers

Are licensed to install permitted onsite sewage system designs, repairs, and alterations.
