WA DOH Data Notes:

This report is based on total counts of kindergarten students' immunization status as reported by public and private schools with kindergartens to the department.

The student immunization status is based on parent-reports to the school and may not be healthcare-provider verified.

Only schools that reported their student vaccination status report are included in this summary.

The department makes no other claims about the accuracy of the data as reported by schools.

Immunization Status Definitions:

Complete: The student meets all the school-entry requirements for their age and grade (that is, they are in compliance).

Exempt: The student has a signed Certificate of Exemption on file at the school excusing the student from one or more vaccinations due to medical, personal or religious beliefs.

Conditional: The student is missing the required Certificate of Immunization Status or is missing one or more required vaccinations and is making satisfactory progress towards compliance.

Out-of-Compliance: The student is missing the required Certificate of Immunization Status or is missing one or more required vaccinations.
