Audio available: (415) 655-0001

Meeting # 194 273 630

1:00 – 1:30 Update on Request for Proposals for Sedimentation and Hydrology Study

1:30 – 2:30 Ground Water Dynamics with Doug Kelly, Island Count Hydrogeologist

Doug will be presenting information on several different hydrologically important considerations. This is an opportunity to learn how ground water moves and affects things such as:

- Drinking water and wells
- Salt water intrusion
- Surface water interactions

2:30-3:00 Next steps and public meeting planning
