Building Permit Application – Shoreline Bulkhead, Docks and Beach Access Stairs

All applications and supporting documents will be reviewed for completeness prior to acceptance. Allow for at least 60 minutes in the office when turning in applications.

Required for submittal:

- Complete application, signed and completed in ink.
- 2 complete sets of building plans
- 2 complete sets of Engineers calculations (if applicable)
- Provide a copy of the Geotechnical Report or Soils Engineering Report.
- Provide a copy of the approved Shoreline (SHE) Application

Applications MUST be submitted in person at the locations and times specified below

Coupeville Monday – Friday: 8:00 a.m. to 2:00 p.m.

Camano Monday – Friday: 8:00 a.m. to 2:00 p.m.

A permit is an official document that gives a land owner permission to establish a use on or develop their property. Permits provide local government oversight of land use and development in order to protect the health, safety, and welfare of all its citizens. Permit applications are processed by County professionals to ensure proposals are consistent with local, state, and national regulations.

Height of bluff _____ construction materials _____

Fair market value \$ _____ Is this a geological hazardous bluff? Yes _____ No _____

Provide a copy of the Geotechnical Report or Soils Engineering Report.

UNIVERSAL PLOT PLAN

Basic Plot Plan Requirements

All building permit applications require a plot plan. Provide minimum of 1 plot plan drawn **not larger** than 11X17 (8 1/2" X 11" may be used if it is to scale and legible). As you draw your plot plan, please use the following Applicant Checklist to ensure all required information as shown.

_____ Drawn to a standard *engineering* scale not to exceed 1" = 60'. Indicate the engineering scale and provide a bar scale. (Acceptable ranges include: 1"=20' to 1'=60')

_____ Indicate North Arrow directional.

_____ Boundaries, dimensions, and area of lot (square feet or acreage).

_____ Land features: Show top and toe of all slopes, direction of slope, percentage of slope or slope angle, seasonal drainage ways and soggy areas, ditches, ravines, lakes, ordinary high water mark of shoreline, etc.

****NEW CHANGE TO CRITICAL AREAS****

_____ Critical Areas: Show protected species habitats, geologically hazardous areas, floodplains, aquifer recharge areas, streams, wetlands as well as all of their associated buffers onsite or off-site when they may affect the proposal. (note: if a feature is shown on the County's Critical Areas map it must be shown on the plot plan; if you do not believe that feature is present please describe).

_____ Location, size, and purpose of all existing buildings (temporary or permanent) and proposed buildings. Label each as existing or proposed.

_____ Location, dimensions and volume of all existing/proposed propane tanks, fuel tanks, etc. Label each as existing or proposed.

_____ Location, dimensions of all decks, roof overhangs, porches, cantilevers, bay windows, retaining walls, patios and chimneys.

_____ Distances form building to property lines and other buildings.

_____ Location and width of existing and proposed driveways/accesses serving each structure and any parking areas. Access permit numbers, if assigned.

_____ Width and name of road(s) bordering the property.

_____ Indicate all easements (access, utility, drainage, etc.) on the property including their width. Label them with intended use and the Auditor File No.

_____ Indicate location of septic tank, drain field, reserve area and tight line between house and septic tank. Show distance between drain field and reserve area to property lines. Indicate if hooked up to sewer.

_____ Drainage: Location and description of all existing and proposed drainage features and systems, including natural drainage ways, culverts and ditches. Show the direction of water flow.

_____ Grading Plans: Show existing and proposed finished grade contours for any cut or fill 2 feet or greater in height in plan view and cross sections. Indicate quantities of fill or excavation in cubic yards. For any material exported from the site, state quantity and where materials will be disposed. For any materials imported to the site, indicate quantity, source and type of materials.

_____ Existing and proposed vegetation: Please be specific about the type, e.g. grasses, shrubs, types of trees, etc.

_____ Clearing Limits: Show all areas where trees and brush currently exist and will be cut or removed.

_____ Erosion and sedimentation control plans: Show all areas where soil will be exposed along with measures to limit erosion and transport of silt and sediment.

_____ Indicate location of water lines, well, and pollution control radius. Note; A pollution control radius around an off-site well may impact your project if it overlaps onto your parcel.

_____ Road distances to nearest fire hydrant, if applicant has right to use fire hydrant.

_____ Separate Existing Conditions map for large or complex projects. Show topography with contours at intervals no greater than 5' and all natural features.
