### PRE-APPLICATION CONFERENCE

A **Pre-Application Conference** is a meeting that a future applicant schedules with Island County staff members to discuss a potential land use development proposal before submitting a formal application. At the meeting, the staff describes the county standards, processes, and regulations that would apply to the proposal described in the materials they have received. The applicant has an opportunity to ask questions of the county staff and to learn more about the proposal. Staff from county Health, Engineering, Planning, and Building attends the meeting. Other staff from the federal, state, or city jurisdictions may be asked to attend to help with specific issues.

The conferences are held on the second and fourth Thursdays of each month. A meeting is scheduled after this application and associated materials are completed and submitted to the Planning and Community Development Department. It is scheduled on a “first come-first serve” basis, at least three weeks after the pre-application materials are submitted. The pre-application fee is \$300.00 plus a 3% tech fee. Payment is accepted via cash or check.

If the proposed land use is a **cellular communication tower or a Type III Conditional Use**, the applicant needs to advertise, hold and create a record of a **Community Meeting**. This must be completed before an applicant requests a Pre-Application Conference. Information about the requirements for a **Community Meeting**, please contact the Planning Department.

If you have any questions before you submit your Pre-Application form, please call our office at one of the numbers listed above.

**Remember that the more information you provide, the better the staff can prepare and the more you will learn at the meeting.**

2. **Land Division.** Does the proposal include the division of land to create lots?

Yes \_\_\_\_\_ No \_\_\_\_\_ **If yes**, please answer the following questions:

\* How many separate parcel numbers exist today? \_\_\_\_\_

\* On what date was the existing parcel(s) created? \_\_\_\_\_

\* What is the total number of separate parcels that is proposed? \_\_\_\_\_

\* How would the new parcels be accessed? \_\_\_\_\_

---

---

\* Describe the location and amount of area to be cleared and/or graded?

---

---

**Please show the proposed lot lay-out, access, and areas of clearing and grading (excavating) on the map.**

3. **Proposed Access.** Describe the proposed access onto public and private roads.

Are new roads intended to be private or public?

---

---

---

---

4. **Proposed Source of Water.** What is the proposed source of water supply for the proposed use or land division? If the site is within the boundaries of an approved water system, what is the system and has it committed water to the proposed use?

---

---

---

---

5. **Proposed Sewage Disposal.** What is the proposed method of sewage disposal for the proposed use or land division? If the site is within the boundaries of an approved sanitary sewer district, what is the system and has it committed service to the proposed use?
