

Washington State Urban Growth Areas 2009

Legend

- Interstate HWY
- US HWY
- COUNTY

Urban Growth Areas

- Unincorporated UGA
- Cities

LAST UPDATE: MAY 2009

This map is a joint project of the WA State Dept of Commerce and Ecology for the maintenance of a combined incorporated City boundaries and unincorporated Urban Growth Areas (UGA) as defined by the Growth Management Act.

1. The Washington State Dept. of Ecology maintains City/Urban Growth Area boundaries to service its own geographic information business needs.
2. Most boundaries follow current county/city maps and GIS layers provided or displayed by each County and are matched to the Washington State County Parcel layer boundaries defined by each County where possible.
3. This dataset is not meant to represent a legal survey boundary description but rather, follow and include, all ownership parcels within the visual boundaries of a City or UGA.
4. Ecology does not in any way guarantee the accuracy of this information.
5. City and Urban Growth Area boundaries can be changed at any time.
