Cycling Island County

Whether you are looking for a day ride or a touring adventure, you will find your trip in Island County. This map is intended to provide cyclists with information about our scenic roads to help plan your trip. Because Whidbey and Camano Islands are mainly rural communities, the traffic along our county roads is fairly light. However, you will experience higher volumes and speeds along the state highways.

Island Transit is FARE FREE and every bus is equipped with a bike rack. For route and schedule information go to: www.islandtransit.org or call 360-678-7771

Located on the north end of Camano Island, this serene county facility offers sweeping views of Whidbey Island and the mainland.

This map is made possible by a grant from the Federal Highway Administration. Special thanks to Darcy and John Patterson of Bicycles Northwest, Sherry Mays and Dennis Keough of Wheels on Whidbey, Roy Daniel of Island Transit, Matt Nash, Island County Public Works, and Peter Pehl. For comments, questions and suggestions, please contact Island County Public Works at 360-679-7331.
