

ISLAND COUNTY PUBLIC WORKS DEPARTMENT

Lancaster at Wahl Drainage Improvements

Project Description

This project improved the drainage system on the corner of Lancaster and Wahl Rd. This project replaced a failing pipe that started from the northeast side of the intersection and transported water to a channel on the west side of property on the south-west side of the intersection. Construction was completed in February 2016.

Current TIP Year: 2016-2021 **TIP #:** 28

Project Benefits

This project helped with erosion on the corner property of Lancaster and Wahl as well as down stream at the Robinson Road Outfall

Amount Allocated on Current TIP

Costs are in 2015 dollars.

Preliminary Engineering/Design	\$10,000
Right-of-way	\$2,000
