Open Mon-Sat, 10am-4pm

Located inside the Coupeville Solid Waste  
Complex. Accepts surplus & reusable  
building materials, hard-to-recycle items,  
usable latex paint, garden tools, some  
appliances, sports equipment, and more!

Proceeds from the sale of donated items go directly to  
Whidbey Animals' Improvement Foundation (WAIF)

# SECURE YOUR LOAD FOR SAFER ROADS.... IT'S THE LAW!

EXAMPLES OF SECURED LOADS

Netting, straps, rope, and bungee cord can be used to tie each large item to the vehicle. Since there is nothing in the load that can blow out, a cover is not needed.

Garbage cans are secured to the truck with a strap. Lids are secured with bungee cords.

Tarp covers the entire load and is secured with cargo netting.

INADEQUATELY SECURED LOADS

Tie downs are missing. Debris can fall or fly out of moving vehicle. Load should be covered with tarp and cargo net.

Tie downs are inadequate. Top, sides and back of load is not secure. Vehicle is overloaded. Load should be secured with straps and/or cargo net.

Debris can fall or fly out. Load should be secured to the trailer with rope, netting and/or straps.

## FACTS

- ◆ Roughly 40 percent of litter on highways comes from unsecured loads.
- ◆ It is estimated that road litter causes 25,000 accidents in North America each year, nearly 100 of which are fatal.
- ◆ Every year, road debris causes about 400 accidents on Washington State highways.
- ◆ 40 percent of the litter-related violations issued by Washington State Patrol in 2007 were for a failure to secure a load; 21 percent were issued for debris escaping from those loads.
- ◆ More than 12 million pounds of litter comes from vehicles each year in Washington State.

## WASHINGTON STATE FINES

- ◆ \$216 fine for transporting an unsecured load.
- ◆ Up to \$5,000 fine with potential for jail time if an item falls off the vehicle and causes property damage or bodily injury.
- ◆ \$103 fine for a small thing like a piece of paper. Up to \$5,000 for bigger items such as furniture.

## HOW TO SECURE YOUR LOAD

- ◆ **Tie down.** Use rope, bungee cords, netting or straps. Tie larger items directly to your vehicle.
- ◆ **Lighter goes lower.** Put lighter items at the bottom of the load, and weigh them down so they don't blow out.
- ◆ **Don't overload.** Keep material level with truck bed or trailer if at all possible.
- ◆ **Double-check.** Always double-check your load. Ask yourself, "Would I feel safe driving behind my vehicle? If the answer is, "No," then you need to do a better job of securing your load.

## MATERIALS TO SECURE YOUR LOAD

Tarps, netting, ropes, straps, chains, bungee cords, and cargo bar.

## OTHER DISPOSAL OPTIONS

### Residential and Commercial Collection

Island Disposal, Inc., 678-5701 or 321-1331  
City of Oak Harbor, 240-6443 or 240-6444
